Results-driven Software Developer with a proven track record of designing and developing software applications, drawing upon valuable experience from iCONNECT and a comprehensive education at the University of Western Ontario. Proficient in the MERN stack, I leverage the full potential of Chrome Dev Tools to optimize debugging processes. Driven by curiosity and a passion for assisting others, I offer a strong background in React and TypeScript, coupled with expertise in MongoDB and GraphQL database queries. Continuously striving for learning and growth, I am dedicated to delivering exceptional results.
