CAREER OBJECTIVE

Pursuing software engineering to contribute my knowledge in a Software Engineer position. Skills focus on client-side JavaScript, working closely with React.js and TypeScript. Offer backend utility via Express and MongoDB server development. Always take accountability for my work and eager to learn, with cloud solutions like GCP and AWS as my next targets.

Experience

KellyKinetix / Software Developer Intern   *04/2021-11/2021*
- Improved framework infrastructure for improved readability, flexibility, and build speed of future React components
- Linked website to MailChimp, automatedly marketing the company boosting email newsletter subscriptions by 15%
- Implemented new blog feature, from design, data fetching and integration of Netlify CMS to super-charge Blog webpage
- Using meta-tags, JSON-LD Schema, and new content generator (Blog), improved SEO results were achieved (5th $\rightarrow$ 3rd on local businesses)
- Technologies used: React, Tailwind, Styled Components, Material-UI, MailChimp, Netlify, JSON-LD Schema

EDUCATION

University of Western Ontario - London, ON   **Bachelor**: Double Major in Medical Science and Biology

SKILLS

Languages	Frameworks/Databases	Other Technologies	Soft Skills
• TypeScript	• React.js	• Git	• Communication
• JavaScript (ES5/6+)	• React Native	• React-Redux/Redux	• Leader
• HTML/CSS/SCSS	• Next.js	• Figma	• Time Management
• Python	• Express.js	• Material-UI (MUI)	• Independent
• Node.js	• MongoDB (NoSQL)	• NPM	• Collaboration
	• Tailwind	• WebSockets	• Patience

PROJECTS

Stock Simple / React Native, TS, WebSockets, Redux   *09/2021 - Present*
- Mobile app to track stock prices and graphical data. Includes toggle for dark and large text themes.
- Real-time data was achieved and graphed through websocket integration and 3rd party React Native libraries

EXP|CON Concert / React.js, JS, Material-UI, Styled-Components   *04/2021 - 06/2021*
- Implemented UI/UX wireframes to create multi-page app, using React Router to provide navigation
- Overall customer payment workflow was achieved without Backend integration

VOLUNTEER WORK

Let's Talk Science (LTS)
- Partnered with elementary school teachers, providing interactive STEM workshops to enhance youth learning

Heart4Heart (H4H)
- Executive Director, playing key roles in event planning and handling of Finances, earning $784.96 from top event
